ABOUT THE COMPANY

PICTURE POCKET®

Picture Pocket Corporation was created over 30 years ago by a professional photographer named Arnold. Marketing his pictures in 10 different countries, he learned that he could sell more by presenting his transparencies in sleeves with a frosted back. This diffused the light source which otherwise might distract the viewing. He also used a Black Mask or frame which improved the overall look.

His clients loved the new sleeves and asked if he could make some for them as well. Soon other photographers noticed how well these sleeves worked and Arnold became so busy making sleeves for everyone that he did not have time to take pictures anymore. In 1965 Picture Pocket Corporation was established and has been expanding ever since.

Arnold invented and patented several incredible products and decided to sell Picture Pocket Corporation to the Elsmore Family so he could devote all of his time to other important projects.

On September 1, 1986 Buck Elsmore, Sr., Lora Elsmore and Buck Elsmore, Jr. took hold of the reins and began to steer the company in some new directions while retaining all the original employees and product lines, plus adding many new lines as well. The company continued to prosper.

More than a decade later we are one of the leading Archival Filmsleeve manufacturers in the world and are striving to make the world's highest quality film sleeves even better and less expensive.

We look forward and with great expectation to hear from you soon and welcome you among our valued domestic and international customers.

Sincerely,

Buck Elsmore Jr.

Buck Elsmore, Jr.
President

FILM SLEEVING MACHINES

This semiautomatic sleeving machine incorporates a precision rotary cutting blade, color coded indicator lights and all metal construction. *It will accept 4, 5 and 6-frame Noritsu-Style sleeving material!*

OM-S601 $795.00

These manual sleeving machines are for use mainly with our Economy grade sleeves and can dispense up to two different formats at a time with 120-J&C2 and Economy-4 rolls.

RD-MINI $95.00

DAYLIGHT FILM CASSETTES

CASS-110

CASS-135

Our quality line of reusable film cassettes come in two styles, the 110 and the 126/136 style. They fit most processors like Copal, Oriental, and Kodak EP2. Made of a durable plastic and engineered for smooth action. They offer soft-pile velvet to protect the film from scratches and light leaks. Both styles are brown in color to avoid confusion with disposable cassettes.

CASS-110	**$7.95**
CASS-135	**$7.95**

PPC-12	Ultra Orange Cloth	1	$4.50	5	$4.35	10	$4.00
TC-10	Blue Devil Cloth	1	4.50	5	4.35	10	4.00

FILM CLEANING SUPPLIES

Hide-a-Scratch™ liquid virtually eliminates the need to retouch photographic prints by filling in any scratches on the film prior to enlarging. It will not harm the negative and wipes clean with our **Pec-Pad**™ Photographic wipes.

Pec-12™ photographic emulsion cleaner is made of a proprietary waterless substance which is suitable for use on most film and print emulsions. **Pec-12**™ will not cause emulsion swelling, tackiness, water marks or other damage associated with rewashing. It is also archival safe.

Photofinish™ is a nontoxic, biodegradable, general purpose darkroom cleaner. It comes in paste form and will not contaminate your photo chemistry. **Photofinish**™ is effective for removing chemical deposits and developer tars from tanks, trays, and roller transport equipment. No special handling is necessary and it is in full compliance with existing EPA standards.

Archival Film Cleaning Kit includes (1) PS-1001, (1) PS-4001 and (2) PS-5001.

Re-Store™ B&W print solution used with any B&W print chemistry *restores* old, faded black and white prints to their original density and contrast in minutes under normal room lighting. Similar to the chromium intensification process. A 16oz jar can *restore* up to fifty (50) 8x10 black and white prints.

Pec-Pad™ anti-abrasive, lint-free photographic wipes are a superb film, print and camera lens cleaner. (100-wipes per pack)

Pec-Pen™ permanent photographic markers offer an effective way to mark on most photo materials. *Note:* ***Pec-12***™ *will remove* ***Pec-Pen***™

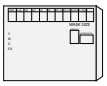
GLASSINE ENVELOPES

Great for reprints and copy work



Glassine Envelopes, also referred to as Glassine Bags; are the perfect way to direct work flow because the copy work instructions can be written directly on the outside of the envelope.

Made of a 100% Archival glassine material, these envelopes will not chemically react with or harm your negatives or transparencies. They have antistatic properties which means they will not attract dust or lint which could otherwise cause damage to the film.

Standard Sizes go from 4-frame 35mm film up to 8x10 in size.

Jumbo Sizes are now available for all of your enlargement copy-work needs from 10x10 up to 22x28.

New! **Thumb-Cut Glassines** are available in 4x5, 5x7, 8x10 and 8.5x11 sizes.

PHOTO LAB ACCESSORIES

Splicing Tape Dispenser

Kinetronics® Splicing tape dispenser is a maintenance free, high quality dispenser. It offers quick smooth dispensing action and the tape can be easily adjusted to the desired length. It can handle tape widths up to 1" and core diameters of 1" and 3" inches.

To order call: 1.800.369.0852

Dispenser Item No.	Price Each
KS-STD	$84.95

Liquid Dispensers

Menda® liquid dispensers prevents spills, dripping, and escaping fumes from endangering the lab technician. Precision valves seal contents in the bottle until used, increasing comfort and safety for the user. One handed touch pump dispenses just the right amount, leaving the other hand free. The valves seal closed in the down position which enables it to be moved without the worry of leakage. Model M-3314FM meets OSHA standards for a flammable liquid container.

Dispensers Item No.	Dispenser Volume	Price Each
M-3312	2 oz.	$11.95
M-3314	4 oz.	12.45
M-3318	8 oz.	12.95
M-3314FM	4 oz.	14.95

StaticWisk Dusting Brush

Kinetronics® StaticWisk™ brushes dissipate static and remove dust. This high quality brush is soft, gentle, and safe to use on your most sensitive film negatives.

JOB ENVELOPES & JOB POCKETS

Protect and organize your work

Job Envelopes are ideal for photo labs, print shops and offices because they keep your paperwork clean, neat and protected from damage.

They are made of a flexible vinyl which is very durable and withstands years of rugged use. The pockets can even expand to fit more of you work.

JE & **JEF-10x12** envelopes actual size is $10^{1}/_{4}$"x$12^{1}/_{4}$" and has two large front pockets. The **JE** & **JEF-12x15** actual size is 12"x 15" and has an extra large rear pocket and a half size front pocket.

The **JE** series envelopes are clear all the way through while the **JEF** series has two clear front pockets and the color of your choice on the backside, which makes them great for color coding.

New LARGE SIZES now available!

Job Pockets make film processing a breeze by color-coding your lab's work flow. It's a proven fact that color attracts the eye and these brightly colored Job Pockets can improve film processing efficiency and help reduce costly mistakes. Try a different color for each day of the week or create an elaborate coding system. *Example: Red for Rush jobs, Green for Restorations, Blue for Enlargements, etc.*

JP & **JPM-6x10** pockets actual size is $6^{3}/_{4}$"x$10^{3}/_{4}$" with two clear front pockets and the color of your choice on the backside.

The **JPM Multi-Pak** series pockets are specially packed with five (5) pockets of each of our seven fabulous colors for a total of (35) pockets per Multi-Pak. They are conveniently packaged to make it easy to order all (7) colors in a single shot.

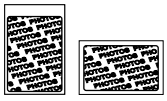
COUNTER ENVELOPES & PRINT WALLETS

Essential envelopes for the lab

CE-870 & **PW-854** are a great way to organize the film processing work flow and to show your customers the care you take with their film.

These envelopes have clear descriptions for: *Film type, Exposures, Size, ASA, Reprints, Enlargements, Glossy or Matte and more.*

"*Treasured Moments*" is in maroon and "*Memories*" is in light gray with a white background on white stock.



CE-825 & **PW-858** are the perfect compliment to our other envelopes because they employ a one inch expanding gusset. Great for double-prints, dupes and reprints.

These envelopes also have clear descriptions for: *Film type, Exposures, Size, ASA, Reprints, Enlargements, Glossy or Matte and more.*

"*Photos, Photos*" is in royal blue on a light blue background on white stock.

CE-870

PW-858	Print Wallet w/ 1" gussett	48.00	46.50	44.50

REORDER SLEEVES

Improves work flow

Our exclusive **Reorder Sleeves** have a clear plastic cover over the film negative to not only protect it, but to have it in clear view so *reorder information* can be written directly above each frame. You see, this unique sleeve incorporates a white paper backing that extends above the negative specifically to have copy-instructions written. The lab technician will know instantly what needs to be done to each frame specified.

Call us for some free samples to test in your photo lab today!

ROTATRIM® CUTTERS

The finest, safest paper cutter you can buy!

Nothing equals the quality and performance of the **RotaTrim® Mastercut-II** rotary cutters. Your first cut with one of these hand-assembled English-made cutters will demonstrate why it's such an indispensable professional tool: in the darkroom, for print finishing, pre-press, desktop publishing, schools, silk-screening, offices and crafts.

RotaTrim is an all-round performer, ideally suited to a variety of jobs. It can slice through tough materials like cardboard, litho plates, mount boards, and even 1/16" hardboard. Yet, RotaTrim also has a delicate touch, trimming film, paper, and dry mount tissue to hairline tolerances.

You can expect RotaTrim to provide years of trouble-free service. Every RotaTrim cutter comes with a five-year warranty*, a statement of our conviction of its reliability and durability. Its proven longevity makes RotaTrim a wise investment. *Blade excluded

RotaTrim® Technical (T-Series) Cutters are the strongest manual rotary cutters made. Handles materials up to 3/16" thick with speed, accuracy and absolute safety. All-metal construction gives the Technical Series cutters the strength and rigidity to handle the heaviest volume and toughest jobs. A massive steel support bar guides the cutting head for precision cuts on lightweight as well as heavy stock. A metric and inch-ruled squaring arm and full length cut guide lines in the baseboard simplify aligning and measuring all types of materials.

MARTIN-YALE STACK CUTTERS

Highest quality stack-cutters on the market

PSC-O12

The Martin-Yale **O-12** paper stack cutter is capable of cutting a stack of prints up to 1 1/2" thick and 12" in length. It makes your work more efficient because you are able to cut a large stack of prints in one stroke rather than one print at a time. *Great time saver!*

This maintenance free portable stack cutter features precision rules, an adjustable paper stop, a safety blade latch and a crank-clamp to assure precise uniform cutting of many types of papers, foam-boards.

PSTW-24

Martin-Yale's line of guillotine stack cutters are the best choice when in production and a fast precision cut is needed. From tissue weight up to heavy card-stock, these cutters can cut all types of media.

Premier® Deluxe stack cutters feature fully hardened, high-carbon steel, self-sharpening blades plated for rust resistance. A large solid-wood measuring area which is precision ruled in both inches and metric scales. They come with Martin-Yale's exclusive 10-year limited warranty, the best warranty in the industry!

PROFESSIONAL LAMINATING SUPPLIES

Laminate your customers photographs for profit

Permanator® 5” Hot Laminator

This laminating machine is a great value and a solid work horse. It features a plate-style laminating mechanism and a variable speed control knob .

You’ll only have to laminate 60 4x6-prints to pay for this machine, after that it’s all profit. That’s a small investment in a highly profitable secondary income source.

Royal 12” Hot Laminator

The BD-1200 laminating machine is the choice when moderate demand and high quality laminates are needed. It features a roller-style laminating mechanism which literally squeezes out air bubbles for a clean, smooth laminate. It can handle laminates up to 12” wide and no paper carrier is needed. It comes with a one year manufacturers warranty.

Royal 12” Hot/Cold Laminator

The PH-1200 laminating machine is the choice when high demand and extremely high quality laminates are a necessity. It features a roller-style laminating mechanism which literally squeezes out air bubbles for a clean, smooth professional quality laminate. HOT-LAM: It has it’s own variable speed and temperature controls so you can fine tune the laminator for different types and thicknesses of laminating films. COLD-LAM: It also gives you a *no-heat* option so you can use it as a cold-lamination press. It comes with a one year manufacturers warranty.

Docu-Shred™ Professional Paper Shredder

Docu-Shred™ model RDS-545 will shred up to 5 pages of 20# paper stock into ultra thin 5mm shredded strips. It features the Snug-Fit™ technology which securely mounts Docu-Shred™ on most wastebaskets. Shred documents on-demand when the, “Auto” setting is selected and using the reverse button backs out skewed documents, eliminating paper jams. Docu-Shred™ is powerful, durable and extremely quiet.

HOYA Filters Item No.	Filters Description	46, 49, 52 & 55mm	58mm	62 & 67mm	72mm	77mm
H-B/SKY	**SKY1B -** Reduces excessive blueness that frequently occurs in outdoor color photography, especially in open shade under a clear blue sky. Excellent for keeping skin tones free of colored reflections.	$11.50	$12.50	$22.95	$32.95	$39.95
H-B/UV	**UV -** Absorbs the ultraviolet rays which often make outdoor photography hazy or indistinct. Perfect for both B&W as well as color film. Also serves as a permanent lens protector	11.50	12.50	22.95	32.95	39.95
H-B/PL	**Polarizer -** Removes unwanted reflections from nonmetallic surfaces such as water, glass, etc. Colors become more saturated and appear clearer, with better contrast. Overall color balance is not affected by this filter. Designed for use with cameras that ***DO NOT*** employ semi-silvered mirrors or prisms to split light entering the viewfinder in order to calculate exposure or focusing distance.	20.95	24.95	29.95	39.95	49.95
H-B/CPL	**Circular Polarizer -** Same effect as our H-B/PL Polarizing filter above except that this filter is designed for use with auto-focus cameras that ***DO*** employ semi-silvered mirrors or prisms to split light entering the viewfinder in order to calculate exposure or focusing distance.	31.25	36.50	53.95	64.95	79.95

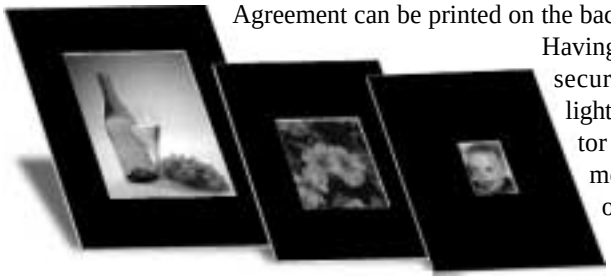
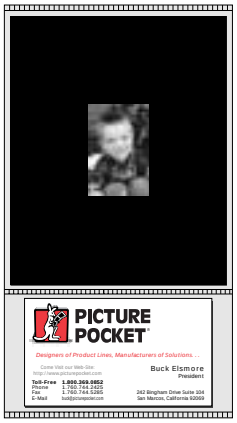
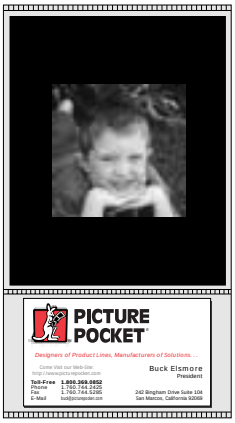
SECURITY FILMSLEEVE SYSTEM™

Security Filmsleeve System™ protects your transparencies against loss and use without commission paid. Your transparencies are sealed into a frosted sleeve with your business card, and cannot be used unless taken out of the sleeve. If the seal is broken, your client has to pay your commission. With your business card enclosed, the transparencies will not be returned to or confused with other photographers as sometimes happens. Subject matter, such as a Return Date or Licensing Agreement can be printed on the back of your business card. Having a frosted backing, our security sleeves diffuse the light source and gives the editor or prospective buyer a more enhanced impression of your film with an increased chance of a sale.





This Security System uses:
135-Mask & 4x7.5-Sec



This Security System uses:
120-Mask & 4x7.5-Sec

Fold-Over Style:

Our Fold-Over double sided Black Masks are available in sizes from 135 up to 4x5. They come packaged in 50 packs and are the same price as the 100 packs of single sided Black Masks. Simply ask for the *Fold-Over Style!*

Three Sizing Groups:

1) You can combine Black Mask Sizes from 135 up to 6x9cm with either 4x5-Sec or 4x7.5 Sec Sleeve.
2) Combine Black Mask sizes 6x12 and 4x5 with either 5x7-Sec or 5x9.5-Sec Security Sleeve.
3) Combine Black Mask size Panorama with either 5x10-Sec or 5x12.5-Sec Security Sleeve.

Black Masks Item No.	Price Per 100 Package	200 to 1000 per 100	1100 to 1900 per 100	2000 or More per 100

ELECTRONIC HEAT SEALERS

Two sizes of our electronic heat sealers are available to seal in the masks, transparencies and business or message cards cleanly and easily. Our sealers can also be used to seal other sleeves and poly bags up to 8" wide with SS-Seal-8" or up to 12" wide with SS-Seal-12".

8" Sealer

12" Sealer

Heat Sealers Item No.	Price Each
SS-Seal-8"	$70.00
SS-Wire-8"	4.00
SS-Teflon-8"	4.00
SS-Seal-12"	90.00
SS-Wire-12"	5.00
SS-Teflon-12"	5.00

MATTE BACKED POCKETS

Three Sizes available: 4x5, 5x7 and 8x10

These top loading matte back, clear front pockets are sealed on 3 sides with an attractive stitched look. Our line of Matte Back Pockets feature a small lip along the top for easy insertion. They can be sealed along the top with an electronic sealer for a complete enclosure. Call 1.800.369.0852 for a *free* sample or to place an order.

Matte Pockets Item No.	Actual Size	Price Per 100 Package	2 or More 100 Packs	Price Per 500 Box	2 or More 500 Boxes

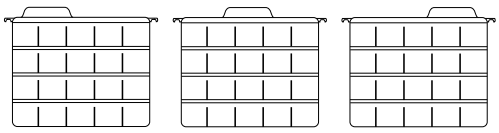
HANGING SLIDE FILES

Create an organized file and retrieval system for your mounted slides

Hanging Slide Files are the best way to organize and retrieve your mounted slides. Each Hanging Slide File comes complete with metal hanging bar and *write-on tabs!* You may request the *write-on tab* placement, Left - Center - Right.

Clear or Frosted!



Slide File Item No.	20 to 75 Price Each	100 to 300 Price Each	400 to 900 Price Each	1000 to 1400 Price Each	1500 Case Price Each

NEG-HANDLER

Solve the annoyance of short filmstrip retrieval

Neg-Handler is the answer to one of the most annoying problems experienced by those who work with 35mm film strips: How does one retrieve short filmstrips from storage pages without risking damage to either the film or the sheet?

Neg-Handler is a paper thin, very durable, flexible nylon strip which has small tabs that fit into 35mm film sprocket holes to either *push-in* or *pullout* short filmstrips.

Neg-Handler is a wonderful tool which pays for itself by saving you valuable time and from wasting film preservers.

PRO-LAB SLEEVES ON-ROLLS™

MADE IN USA

Compare the Quality

When you compare the thickness and length of our Pro-Lab Sleeves to the competition, you'll find out you may be paying over 40% more than you should for a lesser quality sleeving material.

Roll Lengths

R	2 mil.	1,500 feet long
PR	2 mil.	1,500 feet long
R3	3 mil.	1,000 feet long
MR3	3 mil.	1,000 feet long

PR - Perforated Rolls

These rolls are perforated at the indicated exposure length.

To ***Snap-Off***™ our sleeves, hold the sleeve about two inches away on each side of the perforation, now simply ***Snap-Off***™ the sleeve at the desired exposure length.

Loading Instructions

All Pro-Lab Sleeves on Rolls™ come with a lip-flap, so the film is loaded from the side.

To load, just separate the sleeve and insert film. Now take your thumb and index finger and tuck over the lip by running your hand down the full length of the sleeve.

Snap-Off™ or cut the sleeve to length and roll it up for your customer. Use a plastic paper-clip to keep the sleeve from unrolling.

Finest Quality Archival Filmsleeving on the Market

R - Non-Perforated Pro-Lab Sleeves On-Rolls™ (*Clear)*

Archival Polypropylene 2-gauge continuous sleeving on 1,500 foot rolls.

PR - Perforated Pro-Lab Sleeves On-Rolls™ (*Clear)*

Archival Polypropylene 2-gauge perforated sleeving on 1,500 foot rolls. Perforations are at the indicated exposure length intervals.

R3 - Non-Perforated Pro-Lab Sleeves On-Rolls™ (*Heavy, Clear)*

Archival Polypropylene *Heavy* 3-gauge continuous sleeving on 1,000 foot rolls. This material is 50% thicker than our 2-gauge material making it more durable and easier to load film.

MR3 - Non-Perforated Pro-Lab Sleeves On-Rolls™ (*Frosted)*

Archival Polypropylene *Heavy* 3-gauge continuous sleeving on 1,000 foot rolls comes with a *Clear* front and a *Frosted* back. *Great for viewing film without a light table.*

Professional labs from around the world have come to trust the durable, archival qualities of our fine line of Pro-Lab Sleeving products. Call toll-free 1.800.369.0852 to order!

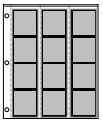
To load all of our Cut-to-Length sleeves, just separate the sleeve and insert film.Now take your thumb and index finger and run your hand down the full length of the sleeve.

PROOF & ARCHIVE™ CONTACT PAGES

Darkroom perfection, from proof-to-archive



Have you ever wondered why there has not been a way to get a "*great proof*" from a page that also fits into a 3-ring binder?

Up until now there has not been a great all-in-one solution. Enter our new line of **Proof & Archive™** contact pages.

Each archival safe sleeve is crystal clear, has pockets for a full-roll of film and oh yes, they also fit into a 3-ring binder.

You've found what you've been looking for, a great system from proof-to-archive. Try some of our new **Proof & Archive™** contact pages today!

Please make note that our Item No. FO-135CPT & FO-6x7cmCPT contact pages need oversize binder AP-OALBUM.

For the sharpest prints, insert film with the emulsion side facing the thin layer of the Proof & Archive™ contact page.

The Professionals Choice.

When it comes to an optically clear, archival safe proofing page, the choice of professionals from around the world is our line of Pro-Lab Contact Sleeves.

Two grades to choose from:

CPT: Made from an optically clear, archival safe, polypropylene material.
CET: Made from a semi-clear, soft polyethylene.

Instructions for use:

For the sharpest prints, insert film with the emulsion side facing the thin layer of the contact sleeve.

PRO-LAB CONTACT SLEEVES ON ROLLS™

Automate your film sleeving

Increases Production: Production can be increased by more than 200% over manual sleeving. Based on the performances of most semiautomatic sleeving machines.

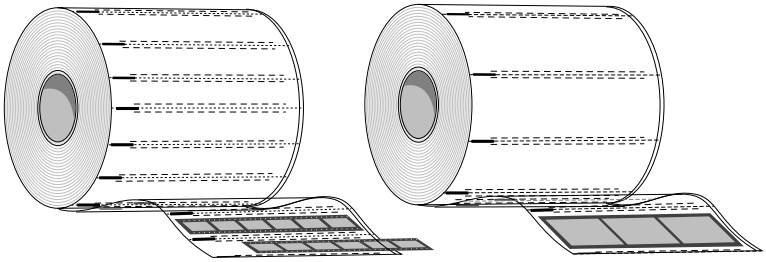
Saves Money: Not only is production increased but Contact Sleeves on Rolls are less expensive than using individual contact sleeves.

Customizable: If you have a short exposure roll, now you don't need to waste an entire contact sheet. Simply sleeve the negatives and cut or manually tear at any desired quantity of pockets.

Versatile: Pro-Lab Contact Sleeves on Rolls can be torn off manually or used in conjunction with a Noritsu-style film sleeving machine. (See page 8 for more info.)

Free Freight: Freight will be paid on any order of 100 rolls or more to the same destination within the Continental United States.

Cost Comparison: One 500 foot 35mm roll yields 3,000 6-frame pockets. Equal to 500 36-exposure contact sheets.



6-frame 135 film sleeving.
R-135/6-CPT: Each 500 foot roll yields 3,000 6-frame pockets.

3-frame 120 film sleeving.
R-120/3-CPT: Each 500 foot roll yields 1,920 3-frame pockets.

Call toll free 1.800.369.0852 to place an order, or on-line at: www.picturepocket.com and click on the Purchase button.

Sleevess on Rolls Item No.	Exposures per Roll	1 Roll Price	2 to 39 Roll Price	40 or More Roll Price

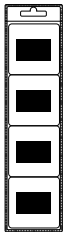
SLIDE PRESENTATION FILES

Slide presentation at its finest



2x2-4SDS

There is no better way to present your slides than our vast line of Slide Presentation Files.

Made from a durable photographic grade, antistatic material, these Slide Files will stand up to continued rough handling and still look their best.

It's the answer to the age old hassle of cutting Slide Pages apart to get the right configuration for your presentation. Now you can have a custom Slide File to fit your needs which adds style and elegance to your presentations, increasing your chance of a sale.

Slide Presentation Files can also be used as a giveaway to your slide processing customers to remind them where they got their processing done. Helps to increase customer reorders.

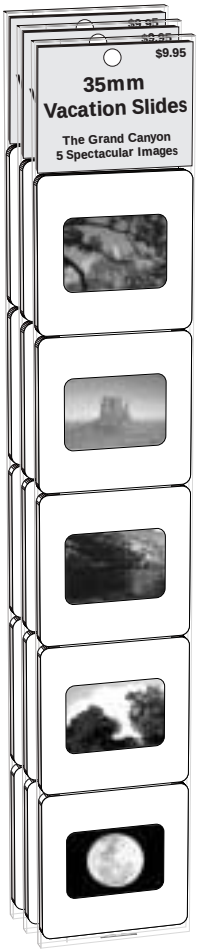
SLIDE DISPLAY SLEEVE



Vacation slides for sale

Our Slide Display Sleeves are a great way to put your slide work on display for sale or presentation. They will hold up to five (5) 2x2 mounted slides and a printed card at the top for descriptions such as: Title, Location, Price, Etc. You can also punch a hole at the top to hang them on display or place them on a sale rack.

They are made of a highly durable 4½ mil photographic grade material which is crystal clear and will stand up to much handling.

Some exceptional uses are:

- **Amusement Parks**
- **Historical Societies**
- **Slide Photographers**
- **Slide Processing Labs**
- **Tourist Gift Shops**
- **Zoo Gift Shops & More!**

Call 1.800.369.0852 to place your order.

INDIVIDUAL SLIDE SLEEVE

Slide protection

Archival protection for 2x2 mounted slides are the perfect choice for safeguarding your precious photography work.

They are made from a crystal clear 4½ mil. Acetate which is 100% Archival safe for lifetime storage.

Our 100 pack Slide Sleeves come in a high quality hard plastic white slide box. It's the same box, (SB-100); you'll see on page 25. Our bulk-pack of 5,000 slide sleeves are favorably discounted.

Our Individual Slide Sleeve will make your slides immune from outside elements and the oils on fingers which could otherwise cause damage or even ruin the slide's emulsion.

They even fit into most projector carousels!

The Archival Slide Sleeve
We designed it with square edges which fits the slide perfectly and eliminates optical distortion.

Slide Sleeve Item No.	Price Per 100 Box	2-14 Boxes Per 100	15-49 Boxes	50 or More 100 Boxes

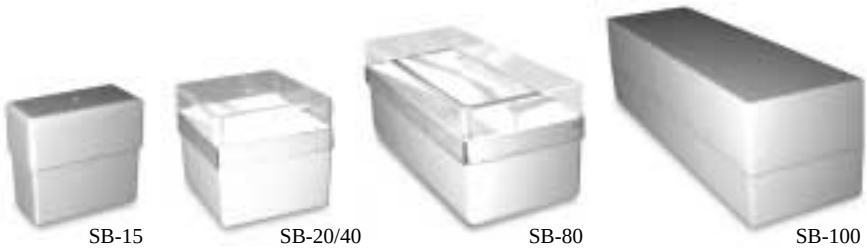
SLIDE STORAGE BOXES

Slide storage containers

Our slide boxes are an excellent choice for the slide photographer and or processor who needs a container that will stand up to continued use of shipping, storage and handling.

Our SB-20/40 and SB-80 feature an opaque white base and a crystal clear lid which makes it great for easy viewing and referencing. Our SB-15 and SB-100 have an opaque white lid and base.

You can count on these slide storage containers to last through years and years of constant usage. To order call toll-free 1.800.369.0852.



SB-15 SB-20/40 SB-80 SB-100

SB-100	100-Slides capacity	.70¢	100 Boxes @ 65¢ ea. $65.00

SLIDE PRESENTATION FOLDERS

Show off your work in style

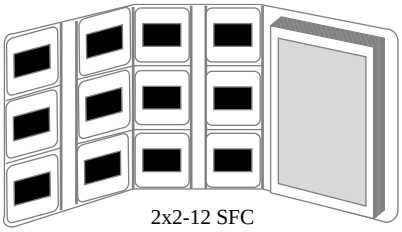
These Slide Presentation Folders will not only keep your slide photography organized but are the best way to show off your work because they can hold a 4x6-print of each slide presented. There is no better way to help the viewer pick out a slide than to have a print of each slide in the same folder with them.

If the sale of slides is the intent, then the adjacent pocket is a perfect place to insert a descriptive brochure of the slide content which makes for a more dramatic presentation and increases the chance of a sale.

Slide Presentation Folders come in two materials:

SFC– stands for **S**lide **F**ile **C**lear and consists of two layers of a very clear, antistatic, photographic grade material.

SFM– stands for **S**lide **F**ile **M**atte. The top layer is clear while the back layer is frosted or matte. Our frosted material diffuses the light source and can be viewed without a light table.



2x2-12 SFC

2x2-18 SFC

SLIDE & LITERATURE MAILER

Advertise through the mail

If you need an extra boost to your slide processing and are having trouble thinking of a unique way to present your business, then give our Slide & Literature pockets a try and see if they don't help increase customer interest and reorders.

A great way to remind current customers that you appreciate their business is with a discount coupon, a slide and business card in one of our Slide & Literature pockets.

Each pocket measures: $6^{1}/_{4}$" x $8^{3}/_{4}$" Open, 4" x $8^{3}/_{4}$" Folded, and the literature pocket itself is $3^{3}/_{4}$" x $8^{3}/_{4}$". When folded each pocket will fit into a standard #10 envelope. ***It's the perfect size for low cost mailings!***
